Safety, Handling & Support

IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these safety instructions could result in fire, electric shock, or other injuries, or damage to Islamic iPrayer or other property. Read all the safety information below before using Islamic iPrayer.

IMPORTANT: The following details on safety, handling and support should also be used in conjunction with the Quick Start Guide enclosed with the product and the instructional audio and video that can be found at www.islamicprayer.com.

Handling: Handle Islamic iPrayer with care. It is made of plastic, metal and textile and has sensitive electronic components inside. Islamic iPrayer can be damaged if dropped, burned, punctured, or crushed, or if it comes in contact with liquid. Don't use a damaged Islamic iPrayer, such as one with a cracked screen, as it may cause injury. If you're concerned about scratching, consider taking appropriate precautions to protect it when storing and/ or transporting.

Repairing: Do not open Islamic iPrayer and don't attempt to repair Islamic iPrayer by yourself. Disassembling Islamic iPrayer may cause injury to you or damage to Islamic iPrayer. If Islamic iPrayer is damaged, malfunctions, or comes in contact with liquid, contact us via our website at www.islamicprayer.com.

Battery: Do not attempt to replace the Islamic iPrayer battery yourself, you may damage the battery, which could cause overheating and injury. The lithium-ion battery in Islamic iPrayer should be replaced only by appointed authorized service providers as detailed on our website, and must be recycled or disposed of separately from household waste. Don't incinerate the battery.

Charging: Charge Islamic iPrayer with the included cable and power adapter only. Using damaged cables or chargers, or charging when moisture is present, can cause electric shock. When you use the included USB Power Adapter to charge Islamic iPrayer, make sure you plug it into a suitable power outlet. Power adapters may become warm during normal use, and prolonged contact may cause injury. Always allow adequate ventilation around power adapters when using them.

Radio frequency interference: Observe signs and notices that prohibit or restrict the use of electronic devices (for example, in healthcare facilities or blasting areas). Although Islamic iPrayer is designed, tested, and manufactured to comply with regulations governing radio frequency emissions, such emissions from Islamic iPrayer can negatively affect the operation of other electronic equipment, causing them to malfunction. Turn off Islamic iPrayer such as while traveling in aircraft, or when asked to do so by authorities.

Medical conditions: If you have any other medical condition that you believe could be affected by Islamic iPrayer, consult with your physician prior to using Islamic iPrayer.

Explosive atmospheres: Do not charge or use Islamic iPrayer in any area with a potentially explosive atmosphere, such as at a fueling area, or in areas where the air contains chemicals or particles (such as grain, dust, or metal powders). Obey all signs and instructions.

High-consequence activities: Islamic iPrayer is not intended for use where the failure of the device could lead to death, personal injury, or severe environmental damage.

IMPORTANT HANDLING INFORMATION

Cleaning: Clean Islamic iPrayer immediately if it comes in contact with anything that may cause stains—such as dirt, ink, makeup, or lotions. To clean:

- Disconnect the USB Power Adapter and turn Islamic iPrayer off
- Use a soft, lint-free cloth.
- Avoid getting moisture in openings.
- Don't use cleaning products or compressed air. □
- Abrasive media may also damage Islamic iPrayer.

Connecting the USB Power Adapter: Never force the power lead into the micro charging port this may cause damage that is not covered under the warranty.

Turning the Islamic iPrayer on and off: Press once to turn the Islamic iPrayer on and once again to turn Islamic iPrayer off. The switch is a small stroke low force device and excessive force will cause damage that is not covered under warranty.

Operating temperature: Islamic iPrayer is designed to work in ambient temperatures between 32° and 95° F (0° and 35° C) and stored in temperatures -4° and 113° F (-20° and 45° C). Islamic iPrayer can be damaged and battery life shortened if stored or operated outside of these temperature ranges. Avoid exposing Islamic iPrayer to dramatic changes in temperature or humidity. When you're using Islamic iPrayer or charging the battery, it is normal for Islamic iPrayer to get warm.

Restarting & Resetting: If the Islamic iPrayer is not responding or does not appear to be working firstly ensure the Islamic iPrayer is charged and if the problem still persists then press and hold the on/off button gently and not with excessive force for approx. 5 seconds until the start up jingle is played as per a normal on operation.

Battery Replacement: Please contact us on our website at www.islamicprayer.com

SUPPORT INFORMATION

European Union—Disposal information: The symbol above means that according to local laws and regulations your product and/or its battery shall be disposed of separately from household waste. When this product reaches its end of life, take it to a collection point designated by local authorities. The separate collection and recycling of your product and/or its battery at the time of disposal will help conserve natural resources and ensure that it is recycled in a manner that protects human health and the environment.

Regulatory Certification: Islamic iPrayer carries the "CE" mark as an indication of its conformity with relevant regulatory standards following the provisions of European Council Directives 89/336/EEC amended by 92/31/EEC (EMC Directive) and the principal elements of the safety objectives of EC DIRECTIVE 2006/95/EC
