RE: Endorsement of Islamic I prayer

To whom it may concern,

Following our recent meeting with Brother Munif Zia and having the opportunity to observe his recent invention the Islamic I player we would like to conclude with the following.

The Islamic I player is a unique product that encompasses a very effective method of teaching and guiding Muslims and new Muslims with the 5 daily prayers. The recitation of the salah is authentic and the product itself acts as a very useful tool in ensuring that the user can fulfil their duty and carry out their 5 daily prayers with confidence and assurance.

We wish Brother Munif all the best with this endeavour and pray that Allah blesses him with immense rewards for all the hard work and sincere efforts he has put into the design and creation of such a exceptional device that will benefit the Muslim Ummah.

Jazakallah Khair and Regards,
